

String is actually an array of characters!

```
string a = "hello";  
cout<<a.length();
```

5

```
string a = "hello";  
cout<<a[1];
```

e

```
string a = "hello";  
a[3]='p';  
cout<< a;
```

helpo

```
string a = "text";
```

```
char a[5] = {'t', 'e', 'x', 't', '\0'};
```
